

Biosafe - 100% degradable bags with exclusive patented Trioxo-d technology

ATTENTION: ALL ENVIROMENTALLY CONCERNED CONSUMERS

FINALLY A PLASTIC BAG THAT IS PRODUCED FROM 100% VIRGIN PLASTIC.
THAT IS 100% BIO DEGRADABLE.

THIS NEW PLASTIC TECHNOLOGY IS NOW BEING SOLD ON A GLOBAL SCALE. TO BE USED IN PLACE OF ANY EXISTING PLASTIC BAG.

A PATENTED trioxo-d® formula is added when the bags are manufactured. This time capsule formula when triggered reacts with the plastic to allow the degradation process to begin. Heat, Sunlight and Pressure are the three degradation triggers.

The Bio Safe Buffalo Bag is;

- Environmentally responsible
- Minimize landfill waste
- **100%** degradable, **100%** biodegradable and recyclable
- No controversial chemicals
- Built in dispenser
- Packaged in recycled box and printed with non toxic ink
- FDA (USA), CFIA / HC (Canada) and EFSA (EU) compliance
